HOW TO USE THE CONTROLLER

If 1 player plays alone or against the computer, only Controller 1 is used.

If 3 players are competing, Player #1 and Player #3 share Controller 1 and take turns using it.

of 3 skill levels. These skill levels determine the computer's intelligence when guessing letters and solving puzzles. There is a great difference in the computer's intelligence from Level 1 to Level 2.

5. All players, enter your name, in turn, by scrolling the cursor left or right, or wrapping around the alphabet, using the left and right direction arrows on your CONTROL PAD. Lock in each letter with the A or B BUTTON. When your name is complete, scroll to END and lock it in with the A or B BUTTON. (In games against the computer, a name will be entered automatically when the computer player's turn comes on.)

HOW TO PLAY ROUND 1

1. The screen opens with the Wheel of Fortune board displaying the category. It could be: PERSON, PEOPLE, PHRASE, PLACE, EVENT, TITLE, THING, THINGS, FICTIONAL PERSON, or SAME NAME.

- Blank boxes show the number of puzzle letters and puzzle words.
- All players' names appear in order of play.
- An arrow points to Player #1's name to start the game. The arrow moves to the other players' names as their turns come up.

2. Player #1, you are offered the choice of a flashing SPIN or scrolling the cursor to VOWEL or SOLVE. (Players usually elect to SPIN for the first few turns until several letters appear on the board.) You cannot buy vowels until you have at least \$250 in your winnings column for the current round.

- Your decision to SPIN, buy a VOWEL, or SOLVE the puzzle must be made quickly, as the timer (lower left of screen) is counting down to 00.
- If you do not make a decision during the countdown, a buzzer sounds, signaling OUT OF TIME. Play passes to the next player.

Nintendo ENTERTAINMENT SYSTEM

3. CHOOSING TO SPIN:

- Player #1, if you decide to SPIN, lock in the flashing SPIN with the A or B BUTTON.
- The Wheel appears on the screen. To start the Wheel spinning, press the A or B BUTTON.
- A moving horizontal bar (at the upper left of the screen) determines how fast the Wheel is to spin. Pressing the A or B BUTTON when the bar is short triggers a slow spin; when the bar is long, you get a fast spin.
- During the spin, the value meter (at the upper right of the screen) shows the dollar values as they change. When the Wheel stops, the number on which it has stopped determines the value of the consonant you will be selecting during your turn.

These are the only exceptions:

- 1) If the Wheel stops on B (BANKRUPT), you lose all your winnings for the current round.
- 2) If the wheel stops on M (MISS A TURN), you miss your next turn.
- 3) If the Wheel stops on +, you get a FREE SPIN, which you can use during that turn or store and use when the game offers it back at any time during that round if you enter an incorrect letter or land on M (MISS A TURN).

4. ENTERING YOUR CONSONANTS:

Once the value of your letter is determined, the game directs you to ENTER A CONSONANT. Scroll right or left with your cursor to a letter and lock it in with the A or B BUTTON.

- a. If the consonant is correct, its location lights up on the game board and the hostess turns over that letter. The value of the spin for that consonant is entered in your \$\$\$ column. (If that consonant appears twice in the puzzle, your winnings are doubled; if three times, winnings are tripled, etc.) You then continue to spin.

Nintendo ENTERTAINMENT SYSTEM

4. If your CONSONANT is correct, a buzzer sounds. The game screen announces SORRY, and play passes to the next player.

5. BUYING A VOWEL.

You may choose to buy a VOWEL as long as you have \$250 in winnings in the round you are playing.

a. That \$250 is deducted from your winnings whether that vowel is correct or not.

b. It is \$250 regardless of how many times that vowel appears in the puzzle.

c. If you do not have \$250, you will only be offered the choice of SPIN or SOLVE.

6. You may continue to SPIN and enter a CONSONANT or buy a VOWEL until:

- The letter you select is not in the puzzle.
- The letter you select has already been guessed.

Nintendo ENTERTAINMENT SYSTEM

- c. The wheel stops on B (BANKRUPT) or M (MISS A TURN).
- d. You enter a vowel after you have spun the wheel for a consonant.
- e. You give an incorrect solution to the puzzle.
- f. Time runs out before you make your letter selection.

7. Player #2, when your turn comes up, the puzzle appears and the arrow points to your name. Use Controller 2 to take your turn, following the same procedure as Player #1.

8. Player #3, follow the same procedure as Players #1 and #2. Use Controller 1.

9. SOLVING THE PUZZLE:

During any of your turns, you may choose to solve the puzzle:

- a. Scroll the CONTROL PAD to SOLVE and lock it in with the A or B BUTTON.
- b. The puzzle appears at the lower half of the screen, with lines showing the missing letters.

Nintendo ENTERTAINMENT SYSTEM

c. A flashing box indicates the line on which the first missing letter is to be entered. That flashing box moves to each missing letter after you enter the previous one.

d. Scroll the cursor across the alphabet and lock in your selection. That letter will then appear in the flashing box.

e. When all the letters are filled in, scroll to END and lock in the completed puzzle.

f. If your solution is correct, the hostess will turn over the remaining planks on the game board, then clap her hands to congratulate you.

g. If your solution is incorrect, play passes to the next player to SPIN, choose a VOWEL, or SOLVE.

NOTE: Speed is essential since the timer is counting down to 00; accurate spelling is also essential — even one incorrect letter will make the response incorrect.

Nintendo ENTERTAINMENT SYSTEM

HOW TO PLAY ROUND 2

1. A new puzzle appears and the new round, ROUND 2, is displayed at the lower right of the screen.
2. Round 2 is played the same as Round 1.
3. The winner of Round 1 has his/her winnings transferred from the \$\$\$ column to the TOTAL column, which keeps a cumulative total of round winners throughout the entire game.
4. Player #2, you get to start Round 2.

HOW TO PLAY ROUND 3 — THE SPEED-UP ROUND

1. The wheel spins automatically to start the round. The value on which it stops is the amount of money each consonant will be worth for that round. Vowels do not have any dollar value, but may be selected to help solve the puzzle.

2. Player #3 (or Player #2, if only 2 players are competing), you start the round. You do not have to spin. Simply scroll the cursor to a consonant or vowel.

- A correct consonant sends the hostess to the puzzle to turn the letters on the board, and the value (see #1 above) is entered in your \$\$\$ column.
- A correct vowel is turned on the board by the hostess, but no money is added to your winnings.

3. After each correct guess, ATTEMPT TO SOLVE flashes on the screen.

Nintendo ENTERTAINMENT SYSTEM

4. You are given a limited countdown to decide if you want to solve the puzzle.
- a. If you want to solve the puzzle, press the A or B BUTTON during the countdown, then follow steps outlined in Round 1, Step 9, SOLVING THE PUZZLE.

- b. If you do not wish to solve the puzzle, let the time run out. The round will continue with the next player.
5. At the end of Round 3, winners of previous rounds have their dollar winnings transferred to their TOTAL column. The player with the highest total gets to play Round 4.

HOW TO PLAY BOARD

1. If you are the winner, your name appears on the screen. You are offered your choice of a prize to pay for. As each prize appears, you are asked if you want a new prize.

- a. Looking in a YES with the A or B BUTTON changes to a different prize.
- b. Looking in a NO stops the board on the prize shown.

2. You are then shown the category and the blank game board, and are asked to choose 5 consonants and 1 vowel.

Nintendo ENTERTAINMENT SYSTEM

- a. Scroll the cursor first to the consonants, then to the vowel.
 - b. Lock in each selection with the A or B BUTTON. Do this quickly, for this is a timed countdown.
3. The hostess then turns over any of your 6 letters that appear in the puzzle.
4. You are given a timed countdown to figure out the answer.
 - a. Enter each missing letter as its box flashes, locking in each with the A or B BUTTON.
 - b. Scroll to END and press A or B to lock in your completed answer.

Nintendo ENTERTAINMENT SYSTEM

5. If your answer is correct, the hostess turns over the letters on the board. The screen then announces the prize you have won.

6. If your answer is incorrect, you can continue to guess and enter different letters in the flashing boxes until you guess the correct answer or until the timer runs out. In either case, the missing letters are revealed on the game board to show the puzzle solution.

MESSAGE TO PLAYERS

1. This Game Pak uses a program which will randomly access the puzzles. At the end of play, the entire puzzle file is created and made available for future play. This is very much like shuffling a deck of cards after each game. Puzzles are selected at random by the computer, so although there are over 1,000 puzzles (places, things, people, events, etc.), repetition will occur. If repetition does occur and you wish to reshuffle the file, press the RESET button. This will initiate a new game and reshuffle all the puzzles in this file.

2. This game has been programmed to utilize the full TV screen. Since some older model TV sets have rounded screens, a portion of the image may be blocked out.

HINTS ON GAME PLAY

1. Correct spelling is essential when solving a puzzle. We recommend that you check the screen for all the letters you entered before you scroll the cursor to END and lock in your answer.
2. You can "erase" letters you may have entered incorrectly by scrolling the cursor to the  (the correction symbol) and locking it in with the A or B BUTTON.
3. Each time you guess a letter (correctly or incorrectly), that letter is eliminated from the alphabet on the screen.
4. When all consonants have been placed in the puzzle and only vowels are still missing, that information is flashed on the screen, and you can move only to VOWEL or SOLVE.
5. A numeral 1 (or 2 or more) appearing on the scoreboard between your \$\$\$ and TOTAL columns is a reminder for you of the number of FREE SPINS you have accumulated.
6. A boxed arrow  on the scoreboard moves from name to name, indicating the player whose turn it is.
7. A BANKRUPT stop on the wheel applies only to winnings in the current round. Previous rounds' winnings are not affected and stay on the scoreboard under the TOTAL column.

SAFETY PRECAUTIONS

1. This lightweight Game Pak contains complex electronic circuitry. Avoid temperature extremes when storing it or an accessory, shock when moving it.
2. Terminal connectors should not be touched or allowed to get wet or dirty. This can damage the game.
3. Never attempt to open or take apart the Game Pak.
4. Do not treat the Game Pak with paint thinner, benzene, alcohol, or any such solvents.
5. Be certain that the Control Deck POWER BUTTON is turned off when inserting or removing the Game Pak cartridge.
